Experience

Ainable Labs

May 2026 – August 2026

Freelance Software Engineer

Remote

- Built a **Product Management module** with **45+ components** for product CRUD, bulk import, advanced search, and field management, integrating **TanStack Table** with server-side sorting, filtering, and pagination using **React and TypeScript**.
- Developed an end-to-end **Manufacturing Management system** covering production batch tracking, BOM and process template builders, configuration, step-by-step execution, yield reporting, quality thresholds, and batch-level production reports.
- Engineered **Estimate Maker and Offer Maker** modules with dynamic PDF generation, interactive pricing workflows, and list/detail views, delivering **2 revenue-impacting features**.

AlongX Software

April 2025 – February 2026

Software Engineer

Hyderabad (Remote)

- Developed and maintained **cross-platform applications** using **Flutter and Dart** for **Android, iOS, Web, and Windows**, expanding product reach by **40%**.
- Architected and integrated **authentication, payment systems, calendar scheduling, notifications, and profile management**, driving a **25% increase in user engagement**.
- Integrated APIs, third-party services, asynchronous workflows, and real-time features while automating **CI/CD pipelines** for Play Store, App Store, and Microsoft Store, reducing deployment cycles by **60%**.

Dreams Travel and Tour

January 2025 – April 2025

Front End Developer Intern

Noida, UP

- Developed responsive and SEO-optimized web applications using **Next.js**, integrating **REST APIs** and third-party libraries, contributing to a **35% increase in company revenue**.
- Engineered CRM features including **file uploads, payment gateways, CRUD operations, and form validation**, streamlining internal workflows by **60%**.

Krenno Labs

July 2023 – August 2024

Software Developer

New Delhi (Remote)

- Developed responsive web and mobile applications using **Flutter, Dart, Next.js, and Tailwind CSS**, improving application performance and user experience by up to **60%**.
- Implemented **unit testing** and reusable components while refactoring existing codebases to improve scalability, maintainability, and application reliability.

Technical Skills

Languages: Dart, JavaScript, TypeScript, C, C++, SQL, HTML, CSS

Mobile Development: Flutter, Android, iOS, Flutter CLI, Dart DevTools

Frontend Development: React.js, Next.js, Tailwind CSS

State Management: BLoC, Provider, GetX, Redux, MobX

APIs & Integrations: REST APIs, Firebase, Google Maps API, Social Media APIs, WebSockets, FCM, Third-party SDKs

Testing: Unit Testing, Widget Testing, Integration Testing

Tools: Git, GitHub, Postman, VS Code, Visual Studio, Docker, CI/CD (GitHub Actions)

Core Concepts: Streams, pubspec.yaml, OOP, Agile/Scrum, Responsive Design

Projects

Moli | Dart, Flutter, REST APIs, Firebase, Google Maps API

May 2025 – February 2026

- Upgraded the Flutter application architecture using **GetX**, WebSockets, and **Firebase Cloud Messaging (FCM)**, enabling real-time communication for **500+ users** and improving service assignment speed by **45%**.
- Integrated **Plaid and third-party financial services** to support instant bank verification, automated payout processing, and real-time earnings tracking for **500+ court users**.

Bold & Agyl Website | Next.js, Tailwind CSS, GSAP

January 2025 – March 2025

- Delivered a high-performance, SEO-optimized website using **Next.js SSR/SSG**, reducing page load time by **40%+** and achieving **90+ Lighthouse scores**.
- Improved frontend performance through **code splitting, lazy loading, and asset optimization**, improving Core Web Vitals including LCP and CLS.
