Education

Galgotias University

Bachelor of Technology in Computer Science and Engineering

July 2020 – June 2024

Greater Noida, Uttar Pradesh

Experience

Ainable Labs

Freelance Software Engineer

May 2026 – August 2026

Remote

- Built a **Product Management module** with 45+ reusable React/TypeScript components for product CRUD, bulk import, advanced search, and field management; integrated TanStack Table with **server-side sorting, filtering, and pagination**, with **LLM-powered assistance** for product data search and management.
- Engineered a full-stack BOM and inventory management module using **React.js, Next.js, Python, and FastAPI**, integrating **LangChain, RAG, and vector databases** to enable natural-language retrieval across BOMs, components, and inventory data, supporting 10K+ records.
- Shipped **Estimate Maker and Offer Maker** modules with dynamic PDF generation, interactive pricing workflows, and list/detail views, delivering **2 revenue-impacting features**.

AlongX Software

Software Engineer

April 2025 – February 2026

Hyderabad (Remote)

- Engineered scalable Python **data extraction and web scraping pipelines** using **Playwright, Selenium, BeautifulSoup, FastAPI, and REST APIs**, handling dynamic content, **asynchronous workflows**, and **anti-bot mechanisms** to process 100K+ records.
- Built user-facing flows for **authentication, payments, calendar scheduling, notifications, and profile management**, integrating LLM-powered features and **AI-driven data retrieval** to enhance user experiences and drive a 25% increase in user engagement.
- Developed **AI-powered backend workflows** using Python, FastAPI, LangChain, LLMs, RAG, and vector databases, integrating extracted data with application APIs and databases for intelligent search and retrieval.

Krenno Labs

Software Developer

July 2023 – August 2024

New Delhi (Remote)

- Developed responsive AI-powered web and mobile interfaces using **Flutter, Dart, Next.js, and Tailwind CSS**, integrating **LLM APIs**, real-time data, and intelligent search workflows to improve application performance and user experience by up to 60%.
- Developed full-stack AI-powered applications using **React.js, Next.js, Python, FastAPI, and LangChain**, integrating **LLMs, RAG, vector databases**, and **REST APIs** to enable semantic search across 10K+ scraped documents.

Technical Skills

Languages & Backend: Python, Dart, TypeScript, JavaScript, SQL, FastAPI, Node.js, REST APIs, WebSockets

AI, Data & Scraping: LLMs, RAG, LangChain, LangGraph, NLP, Vector Databases, Playwright, Selenium, BeautifulSoup, Scrapy, Data Extraction, PySpark

Web & Frontend: React.js, Next.js, Flutter, Tailwind CSS, HTML5, CSS3, Responsive Design, Component Architecture, TanStack Table

Databases & Cloud: PostgreSQL, MongoDB, Firebase, Snowflake, Databricks, Apache Airflow, dbt

Tools & Delivery: Git, GitHub, Docker, Postman, CI/CD, GitHub Actions, FCM, Google Maps API

Projects

Moli | *Flutter, Python, LangChain, LangGraph*

May 2025 - February 2026

- Upgraded the Flutter application architecture using **GetX, WebSockets, and FCM**, integrating a stateful **LangGraph-based AI agent with Hybrid RAG (BM25 + dense embeddings + cross-encoder reranking)** to enable real-time contract analysis for 500+ users and improve service assignment speed by 45%.
- Integrated AI-powered legal document workflows with **Python, FastAPI, LangChain, and vector databases**, enabling contract/NDA ingestion, **clause extraction, risk-term detection, structured risk summaries, and page-level citations** alongside financial verification and payout workflows for 500+ court users.

Bold & Agyl Website | *Next.js, Tailwind CSS, GSAP*

January 2025 – March 2025

- Delivered a high-performance, **SEO-optimized website** using **Next.js SSR/SSG**, reducing page load time by **40%+** and achieving **90+ Lighthouse scores**.
- Improved frontend performance through **code splitting, lazy loading, and asset optimization**; implemented **schema markup, sitemap management, and analytics tracking** to improve discoverability and measurement.
